

Formative Assessment

This assignment will carry 40% of the Overall Assessment.

Task

Write a short essay (300–400 words) explaining the importance of descriptive statistics in summarizing and interpreting data in public health or your field of study. Include at least one real-life example.

Submission

1. You may need to use the cover page for your assignment
2. Submit assignment in PDF format through MOOC Platform and email to Theingi.maung@unikl.edu.my
3. Submit on due date.
