

Summative Assessment

Mini Project

This will carry 40% of the overall assessment.

Task

Using a small dataset (20 observations of age and gender), (a) create a frequency distribution table, (b) construct a suitable graph (bar chart, histogram, or pie chart), and (c) provide a short interpretation (100–150 words) of your findings. You may use Excel, Google Sheets.

Submission

1. You may need to use the cover page for your assignment
2. Submit assignment in PDF format through MOOC Platform
3. PDF assignment and data set can be emailed to Theingi.maung@unikl.edu.my
3. Submit on due date.
